* Trimmers equipped with loop handles
 ● Approved for use with designated unit as originally equipped
¹Not for use on FS 94 R
²Not for use on FS 240 or FS 240 R
³Only fits FSA 57 trimmers starting with serial number 9XXXXXXXXX
⁴Only fits FSA 57 trimmers starting with serial number 5XXXXXXXXX

Note: Numbers with "mm" show arbor size. Consult your instruction manual or your authorized STIHL Dealer for approved cutting head/deflector combinations.
Note: Barrier bar and large deflector must be attached when using a metal blade with loop-handle (R) trimmer.
Note: Specifications are as of Oct. 1, 2024. For most recent updates, visit STIHLusa.com.
IMPORTANT INFORMATION
WARNING: Improper use of any brushcutter trimmer can cause serious or fatal injury. Read, understand and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a bicycle handle and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle (R). Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle, or a loop handle equipped with a barrier bar. To reduce the risk of eye injury, always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

TRIMMER ACCESSORIES

Find the right cutting head for the job.
See page 88 for the full line of STIHL trimmers.

DuroCut LINE HEAD
Ideal trimmer head if you prefer manual heads that require precut lengths of nylon line, even when operating in severe applications.

TrimCut™ LINE HEAD
Double line for mowing and trimming. The nylon line length is adjusted by hand.

AutoCut® LINE HEAD
Double or quadruple line for mowing and trimming. The nylon line length is adjusted by tapping the cutting head against the ground.

STIHL SuperCut™ LINE HEAD
Double line for mowing and trimming. The mowing line is automatically kept at the optimum cutting length.

STIHL PolyCut™ MOWING HEAD
Cutting tool for trimming and working on large areas with pivoting thermoplastic blades.

GRASS CUTTING BLADE
Reversible steel quadruple blade. For working on large areas of tough grass.

GRASS CUTTING BLADE
Steel blade with eight teeth. For mowing thick dry grass and reeds.

BRUSH KNIFE
Steel triple blade. For trimming and removing tough, tangled grass, scrub, and thorny bushes.

CIRCULAR SAW BLADE, CHISEL TOOTH
Special steel tool for mid-range brushcutters upwards. For gnarled bushes, thin tree trunks, sawing, and clearing.
